## SERVICES

Serving general contractors and owners throughout Kenya, kafum has an excellent reputation for quality construction machinery, moulding Equipments and agri machinery fabrication, performance and safety. Our steel fabrication and erection services include the use of various pieces of company provided equipment including cranes, scaffolding . Typical steel fabrication and erection of water towers, musts street lights for county Government s, construction company's, schools, medical centers, parking garages, farms and private residential's clients etc.

## OUR CREW

We do our best to provide competitive bids, work within the scope of the plans and do it all safely and on time. We have many capable foremen and crews to ensure that each construction machinery, moulding machinery, farm machinery or steel fabrication and erection project we take on gets the service and experience it deserves to keep our commitments. Our crews are trained, certified and we follow international construction machinery and equipment standards.

## MISSION STATEMENT

Kafum engineering. is committed to being a leader in our industry by meeting or exceeding contract requirements, employing quality minded people and following proven practices. We are people of integrity, who work hard to satisfy customer expectations. It is our ambition to build lasting relationships with other great companies who choose to work with us.

## OUR WORKSHOP

Our building construction machinery and equipment fabrication workshop in Kariobangi light industry is large enough to take on projects for large scale fabrications of construction machinery, moulding Equipments and farm machinery as well as the needs of other clients. We have a very talented production department, CNC equipment and the capacity to handle any fabrication and erection projects of all sizes. We have worked with the largest general contractors in the country for decades and have maintained the ability to do so with solid communication, hard work and integrity.

## OTHER SERVICES

Building construction machinery is not our only forte. As a matter of fact, Kafum is deemed by many as experts in providing miscellaneous metals fabrication and installation. We would love the opportunity to bid on your miscellaneous metal construction needs including water towers, masts, street lights, scaffolding, stairs, handrails, gates, elevator guide rails, bollards and other components normally covered in a steel contract.
